MANAGE THE IMPACT ELECTRICITY HAS ON YOUR BOTTOM LINE

Controlling your electricity costs starts with understanding your usage. By analyzing your historical electricity usage, we can recommend the solution that's right for your business.

We'll need to get your historical usage information from your local utility. To do that, we'll need you to complete the Electricity Usage Authorization form below, which will instruct the utility to release your usage data to us.

We appreciate that this information is sensitive, but we need it to properly create a quote.

IMPORTANT

- 1 We value and respect your privacy. You have our commitment that, by providing us with your contact information, you will not have your electricity service provider switched without your express, written consent.
- 2 This authorization in no way binds you to the purchase of any service or product from CNEC. It will be used only to determine an offer price for electricity supply.

ELECTRICITY USAGE AUTHORIZATION FORM

I hereby authorize my local utility to release my historical energy usage & billing information to Constellation NewEnergy Canada (CNEC) so that they may evaluate my electricity usage patterns and make me an offer to supply electricity.
